

# Methane to Markets

**Methane to Markets Partnership Expo**  
**Beijing, China**  
**30 October - 1 November 2007**

## **Oil and Gas Sector Specific Track Agenda**

<b>Session Name / Speech Topic</b>
<b>Oil and Gas Subsection Plenary - Doug Griffin, Chair</b>
Chinese Government and Oil and Gas Chairmen Opening Statements
Chinese National Offshore Oil Company
Chinese National Petroleum Company
SinoPec
Question and Answer
<b>Policy, Regulatory Issues, &amp; Climate Change - Christopher Freitas, Chair</b>
Policy and Regulatory Issues
Kyoto Protocol, CDM, JI, & Carbon Markets
Roundtable – including case study discussion
<b>Upstream Production: Oil and Gas Wells - Francesco Presicce, Chair</b>
Gas well / Green Completions
Condensate and Field Storage – Vapor Recovery Low Emissions Gas Dehydration Technologies
ENI Case Study
Roundtable
<b>Processing, Transmission, &amp; Distribution - Eliza Dyakowska, Chair</b>
Efficiency in Processing Facilities
Integrity Management: Pipeline Maintenance and Repair and Pipeline Pumpdown and Hot Taps
TransCanada Case Study
Roundtable
Excess flow valves - <b>POSTER</b>

## Oil and Gas Sector Specific Track Agenda (continued)

### Compression and Leak Detection - Javier Bocanegra, Chair

Low Emissions Compression Technologies

Remote Sensing, Optical Imaging, Leak Detection

High-Altitude, Aerial Natural Gas Leak Detection

GOSAT

Methane Emission Measurement Technologies

Roundtable

Pneumatics – Remote Facilities, Instrument Air and Low Bleed Pneumatics - **POSTER**

### Associated Gas Production and Utilization - Kaplan Basniev, Chair

Associated Gas Handling Including Gas and CO<sub>2</sub>

Associated Gas Utilization

Development of Markets

Unconventional Gas Resources (Well Completions and Production Methods)

Roundtable
